EXCLUSIVELY OURS: NZ'S ONLY STATE-OF-THE-ART RIDE-ON GRINDER

Concretepolish.co.nz has exclusive use of New Zealand's biggest, most effective ride-on grinder. The HTC 1500 ixT is an incredibly powerful concrete grinder that covers large areas in a short time, which means high-quality production and huge time savings, leading to a lower cost for your next project.

The HTC-1500 is a beautiful piece of industry-leading equipment from Sweden, which can deliver 1800 square metres of hard grinding in a single day. Large and small areas are no problem for our technologically advanced grinding machines. From our smaller grinding machines, including our HTC 270 EG edge-grinder, to our mind-blowing HTC-1500 ixT ride-on, our equipment and our highly-trained staff provide excellent results every time. Combined with HTC's diamond tools and dust extractors, we operate a very safe and dust-free environment for you and all tradesmen working on site.

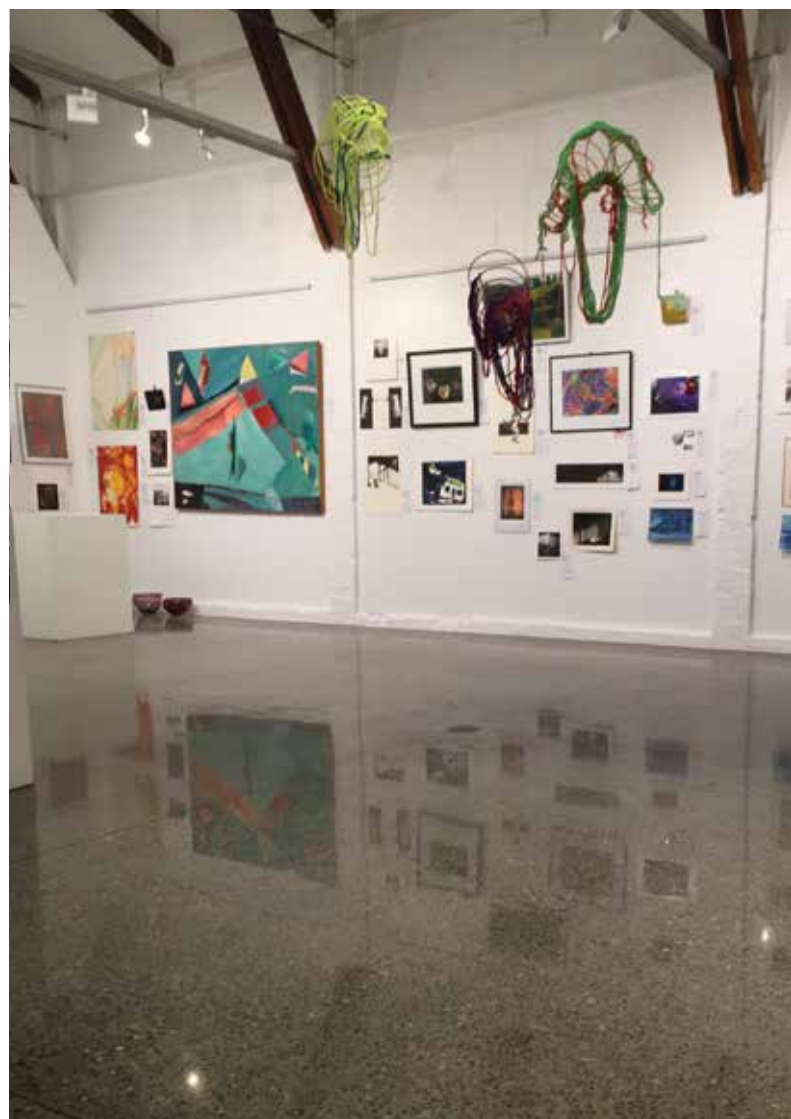

We are proud to offer a complete system which allows us to produce smoothly polished floors with a speed and precision unmatched by our competitors.

Concretepolish.co.nz prefers to partner with the concrete placing company to ensure all aspects of placing and finishing are carried out in a way that ensures a premium finish.

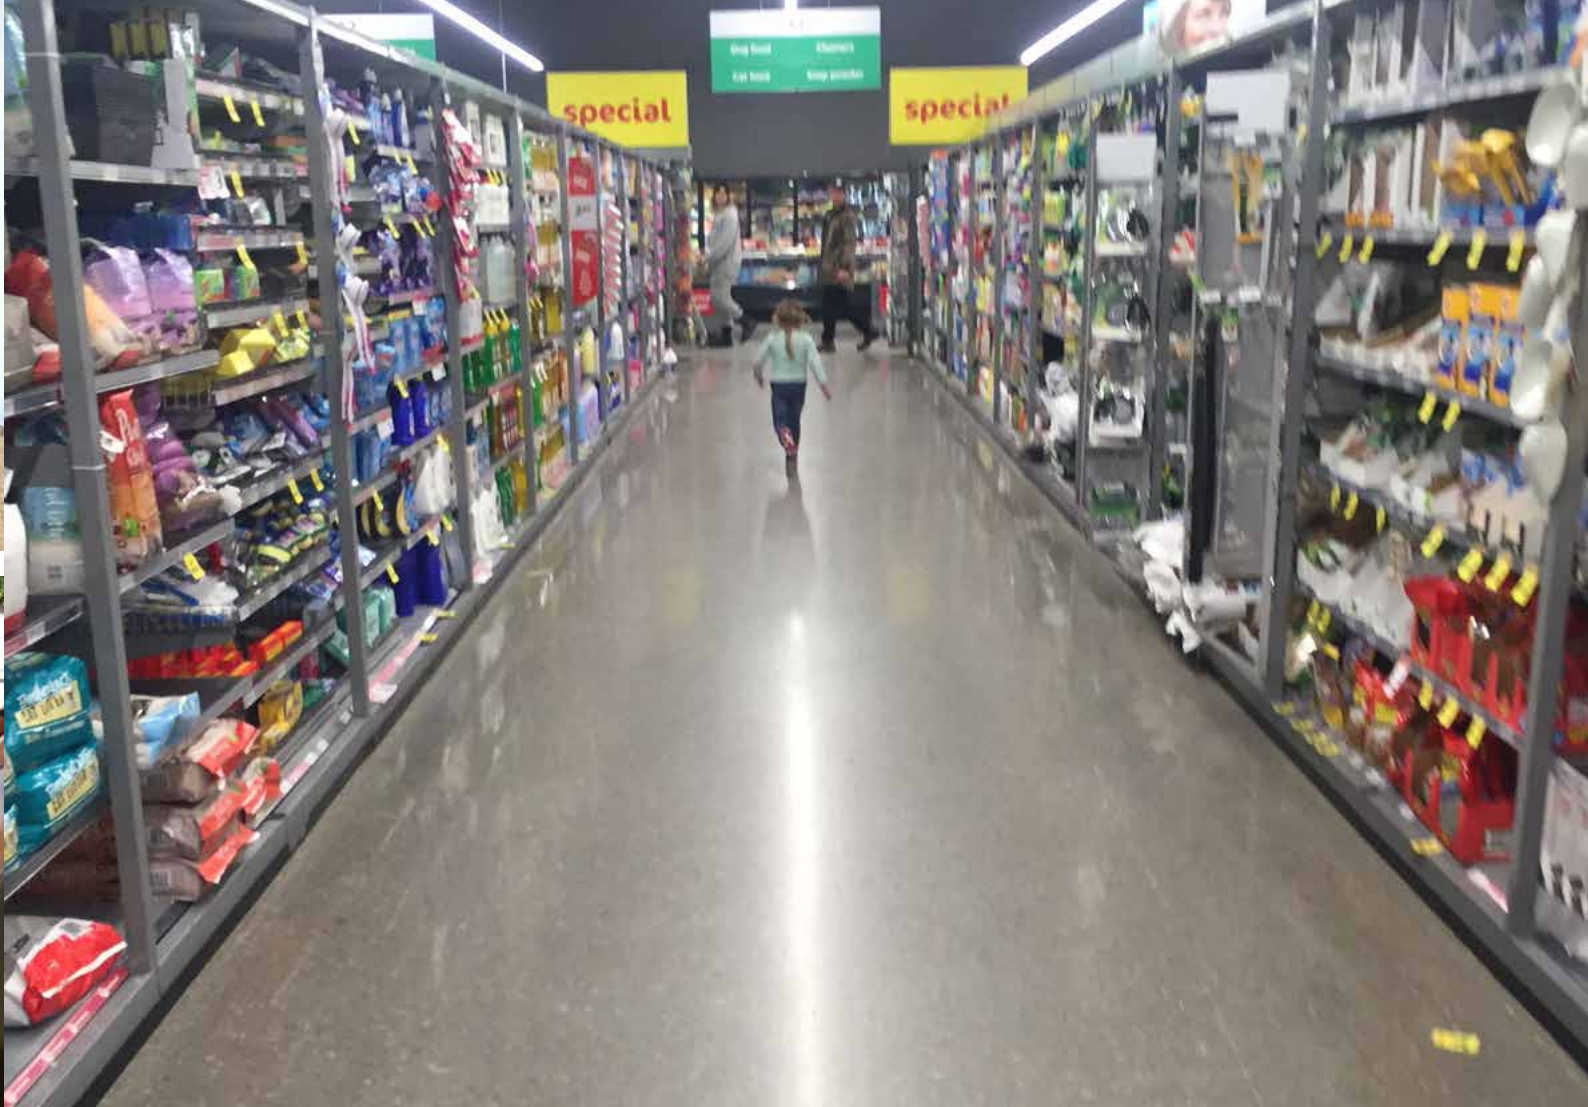

Concretepolish.co.nz has been privileged to work on many high-profile and exciting projects, with clients including:

- Fisher & Paykel Research and Development Unit
- ASB Waterfront Theatre
- Bunnings Warehouse
- Nood
- 1st Choice
- PAK'nSAVE Palmerston North
- PAK'nSAVE Napier
- Massey University Albany Campus
- Farmers Building
- Placemakers
- Cotton On
- Stirling Sports Palmerston North
- Mitre 10 Mega Palmerston North
- RD1 Tokoroa
- Proliant Feilding
- Bed Bath & Beyond
- Christchurch Hospital Rebuild (50,000sqm)

CONCRETE PREP & GRIND

Whether you're laying tiles or flooring, or planning a new footpath or driveway, our skilled teams will take care of removing unwanted concrete or coatings to ensure an even base.

We utilise a range of grinders, including our state-of-the-art ride-on, to get the job done, whether it's removing concrete from a path or large floor area, grinding to expose stones for concrete honing, or smoothing out older layers of concrete before you lay new flooring.

STAGE ONE: POURING

STAGE TWO: PRE-GRIND

STAGE THREE: POLISHING

WHY CHOOSE US

Whether you're creating a unique, customised concrete floor, or polishing an existing floor for a chic, modern look, Concret polish.co.nz will deliver impressive results.

TOP SERVICE

Our company is the best in the business, with skilled teams, top-of-the-line equipment and years of expertise to achieve spectacular flooring results for every valued client.

YOU'LL BE FLOORED

We're passionate about bringing your dreams to life, and creating a floor for you to fall in love with.

No job is too big or too small, from home and outdoor spaces to commercial and retail properties of all sizes.

MOBILE & COST-EFFECTIVE

The top standard of work at an affordable price, with our fully-mobile teams working right across New Zealand.

BEAUTIFUL FINISH

Through years of creating dream floors for our clientele, we've set a new standard for concrete polishing techniques, utilising the best products and equipment to ensure optimal results every time.

Concret polish.co.nz's work creates a beautiful natural finish for your concrete floors, for a sophisticated look that's slip-resistant, durable and easy to maintain.

OUR PRINCIPLES

Our values of integrity, accountability, innovation and delivery underpin our business.

A strong safety culture is fully integrated into all of our business practices, which include a dedicated health and safety framework to keep our staff, leaders and subcontractors safe on our work sites.

POLISHED CONCRETE VERSUS OTHER FLOORING MATERIALS

	Carpet	Ceramic tile	Vinyl or linoleum	Wood or wood laminate	Natural stone	Polished concrete
Availability of design options	Good	Good	Good	Good	Good	Excellent
Longevity and performance	Poor	Good	Good	Good	Excellent	Excellent
Ease of maintenance	Poor	Good	Good	Good	Good	Excellent
Average life cycle cost	High	Low	Mid-range	Mid-range	Low	Very Low
Can radiate heat and store solar energy	No	No	No	No	Possibly (dependent on material)	Yes
Safe from humidity and moisture damage	No	Yes	No	No	Yes	Yes
Will not harbour mould, mildew, dust mites and other allergens	No	Yes	Yes	No	Yes	Yes
Is a sustainable flooring alternative	No	Yes	Possibly (if made from natural materials)	Possibly (if made from natural materials)	Yes	Yes
Average cost per m ² installed	\$36 - \$70	\$120-\$240	\$28-\$60	\$85-110	\$210+	\$16 - \$80 (for a 3,000-grit finish and the use of an impregnating sealer)

WE ARE THE BEST IN THE BUSINESS

Our fully-mobile teams work right across the country to deliver excellent results
